Application				
Evaporator	Flooded – thermosyphon	<input type="checkbox"/>	Condenser	<input type="checkbox"/>
	Flooded – forced flow	<input type="checkbox"/>	Desuperheater	<input type="checkbox"/>
	Pump circulating rate:	_____		
	Dry expansion	<input type="checkbox"/>		

Operating data			
Heat duty	kW	
	Refrigerant side	Product side	
type of medium	
inlet temperature °C °C	
evap. / cond. Temperature °C		
outlet temperature °C °C	
mass flow rate kg/h kg/h	
volume flow rate m ³ /h m ³ /h	
max. pressure drop kPa kPa	
operating pressure bar bar	

Technical specification			
Design temperature °C °C	
Design pressure bar bar	
Connection size mm mm	
Plate material
